LIMITED EDITION EBONY COLLECTION

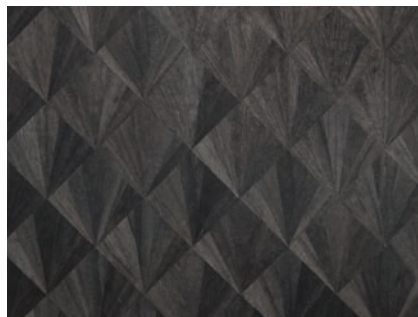

Maya Romanoff is pleased to present four wallcoverings: Weathered Metals and River Bed hand-painted papers, as well as Ajiro Chevron and Ajiro Fanfare wood veneers, in new limited edition Ebony. The Ebony collection launches in May 2016, and will present signature designs reinvented in striking shades of grey and black—all painted by hand in the Maya Romanoff Chicago studio.

The majority of MAYA's products are handmade onsite in the Chicago studio, which opens up the potential for designer collaborations and the creation of bespoke product. Designs are readily customized with low minimum yardage requirements and moderate lead times. Most products are customizable in color, width, length and even pattern—making the possibilities nearly unlimited.
