# GLOBAL WARMING

These toasty treats will bring the heat to counter that chilly cold snap.

Photography by Chris Plavidal | Styled by Jamie Laubhan-Oliver & Jocelyn Meintser

#### FIRE STARTER

### Light My Fire

Tom Goodson spent time as a creative director in New York City before getting into the real estate investment and banking business for the next 20 years. And although he never toiled as a chimney sweep, he had an idea for the perfect outdoor fireplace a few years ago. So he headed over to his lawyer's office to get started on the patents and began production on the Chimney Box, a well-designed fire receptacle that is easier to tend and clean than traditional fire pits. And it's prettier, too. Once you purchase, the fireplace arrives assembled and ready for its place of honor in your backyard. The best part? You don't have to treat it with kid gloves. "It can literally stand on your property like a farm implement that gets used a few times a year but sits outside for 70 years," Goodson says. [thechimneybox.com](http://thechimneybox.com)
