

## PROPER CARE AND ROUTINE MAINTENANCE OF YOUR WALLCOVERING WILL HELP PRESERVE ITS BEAUTY.

- Avoid direct or reflected sunlight. Our wallcoverings are not guaranteed against fading or color change.
- Maya Romanoff wallcoverings are formulated for dry-use areas.
- Before cleaning any wallcoverings, test first on a small, inconspicuous area.
- Avoid getting the wallcovering excessively wet.
- Never use abrasive cleansers or steel wool as they will mar the surface.
- Clean by blotting the soiled area with a soft, clean cloth, dampened with a mild solution of clear liquid detergent. Dry with a soft, clean cloth.
- Do not use harsh cleaners, solvents, or chemicals of any kind to clean Maya Romanoff products unless following the special guidelines below.

## SPECIAL CLEANING GUIDELINES FOR DISINFECTING

*When used as directed, disinfectant wipes and diluted bleach detergent/water solutions can be safe and effective sanitization methods on the majority of our wallcoverings.*

**BEFORE PROCEEDING WITH THE PROCESS BELOW, TEST FIRST ON A SMALL, INCONSPICUOUS AREA TO ENSURE THERE WILL BE NO DAMAGE TO THE WALLCOVERING.**

- 1 Chloride bleach should always be diluted with water, and never be applied at full strength.
- 2 To properly dilute bleach for disinfecting wallcovering, mix 1 part bleach to 50 parts water (approximately 5 tablespoons of bleach to one gallon of water).
- 3 Make sure the wallcovering surface is free of loose dirt or dust.
- 4 With a soft, clean cloth, gently wipe the surface with the diluted bleach/water solution.
- 5 Make sure there is proper ventilation.
- 6 Allow solution one minute to set; then use a soft, clean cloth to carefully wipe down the surface. Allow time for air dry.

SEE BACKSIDE FOR A COMPLETE LISTING OF OUR WALLCOVERINGS THAT CAN BE SANITIZED WITH DISINFECTANT WIPES & DILUTED BLEACH DETERGENT/WATER SOLUTIONS.
