2023 & BEYOND BUCKET LIST

ACCOMPLISH GOALS,
MAKE MEMORIES.

We invite you to take a break from the digital world, pick up a pen and begin using *Luxury Guide's* inaugural engaging format to plan your purchases and projects for 2023, from finding the perfect home or building or remodeling an existing one to buying your next car, boat or gift for that special someone!

But don't forget—life is also about experiences. Peruse our more than 100 ideas of things to add to your bucket list: memorable events, shows and fairs you always wanted to attend; sites to see that you've only read about; experiences that will get your heart racing; resorts that will make your jaw drop; and restaurants where you'll dine like you've never dined before.

Memories are the best things we have, so be sure to maintain yours with a little help! After you've completed your projects and bucket list experiences, check off, date and journal important notes so that you can enjoy *Luxury Guide* as your lifelong keepsake!

Enjoy Your Journey

YOLO

You Only Live Once

My inspiration behind the inaugural Bucket List edition

Lynette Janac, Publisher/CEO

Photo by Marc J.

Every year, I have big plans to do more, see more and travel more. And as each year passes by, the only boxes I ever seem to be checking off are those on my work to-do list! They say, “When you do what you love, you’ll never work a day in your life.” I have been fortunate to do what I love—maybe sometimes too much!

At the end of 2021, I made a drastic decision: After 10 years of publishing bimonthly, and then quarterly, I converted *Luxury Guide* into an annual resource guide covering a variety of timeless topics that our readers would want or need at various time of the year.

In lieu of printing our publication quarterly, I increased our digital content, thinking it would be a breeze. I was so excited that I would finally be free of the printer’s daunting deadlines that plagued me—boy, was I wrong!

I found myself busier than ever trying to keep up with the digital world. The treadmill I was on for years was only accelerated by the demands of instant gratification and an “I want it now” mentality. In today’s digital age, where we seemingly can have everything we ever dreamed of at our fingertips, where art and culture and even real estate are finding homes in the “metaverse,” have we lost the desire to experience the beauty of real life?

Although technology can be all too convenient at times, I still believe we find inspiration and ideas offline that we may never have known about to search; plus, it is far more gratifying to experience things when we use our five senses. When we check off items from our real-life bucket lists, we become more fulfilled than when we complete tasks from our inboxes.

So, in the spirit of keeping my sanity and my passion for print alive, I decided it was time to be OK with mixing business with pleasure! And as a result, I am excited to share our first-ever INTERACTIVE *Luxury Guide* BUCKET LIST edition, which can serve as a lifelong memory-making keepsake for our cherished readers and an engaging, long-lasting piece of marketing collateral for my beloved clients who continue to follow me in my journey. I hope you enjoy reading this inaugural edition as much as I enjoyed producing it.

Life is short; we are only on this beautiful Earth for a limited time. So, I invite you to take this first step with me and commit to enjoying all the things it has to offer. Follow us at @LuxuryGuideUSA.

With gratitude,
Lynette Janac

PANTONE COLOR OF 2023 | VIVA MAGENTA

I am excited to introduce the 2023 Pantone Color of the Year, Viva Magenta, which is used throughout the guide. The meaning of the color resonated with me:

Brave and fearless, Viva Magenta is a pulsating color whose exuberance promotes optimism and joy. Powerful and empowering, it is an animated red that encourages experimentation and self-expression without restraint. Audacious, witty and inclusive, Viva Magenta welcomes everyone with the same rebellious spirit.

Pantone 18-1750 Viva Magenta is a nuanced crimson-red tone that balances warm and cool. It is a hybrid color that comfortably straddles the physical and virtual, evocative of our multidimensional world. Assertive but not aggressive, Viva

Magenta does not boldly dominate but instead takes a “fist in a velvet glove” approach.

Pantone worked with its longtime creative partner, Huge, to engage in a design experiment that explores the relationship between new technology and human creativity. Working with the AI generative tool Midjourney, the team incorporated the messages and ideas embodied by the color to curate an immersive world, “the Magentaverse,” that examines the connections between nature and technology.

GIVE A LITTLE, GET A LOT

WAYS TO GIVE BACK

CHILDREN IN CRISIS

Helping children get out of abusive situations, combat hunger and gain access to education.

ENVIRONMENT

Focuses on protecting the world's natural resources, such as our oceans and forests, and encouraging recycling.

HUNGER RELIEF

Helping children and families get access to nutritional meals.

ANIMAL ALLIES

Supporting animals who can't help themselves by providing shelter, food and care.

ARTS & CULTURE

Supporting the arts, theater, museums, music and other cultural establishments.

MENTAL HEALTH

Helping those with mental health issues such as anxiety and depression that can lead to detrimental outcomes if not treated.

FOR THE CURE

Giving back to causes that help fund cures for such diseases as cancer, heart disease, ALS, autism and more.

ELDERLY ASSISTANCE

Helping those who can no longer take care of themselves through funding of nursing homes, assisted living centers and adult day cares.

HUMAN & CIVIL RIGHTS

Supporting causes for the better good of humanity, such as women's, LGBTQ+, minority rights and underprivileged groups.

ADDICTION & RECOVERY

Supporting individuals and their families struggling with addiction for recovery treatments and centers.

HOUSING EQUITY

Providing shelter, food and warmth to those who lack access to it.

WHEN YOU GIVE BACK, YOU GET BACK.

There's nothing more fulfilling than giving back to those who need help. Your generosity, be it monetary or donating your time, could provide someone a meal for the day, a place to sleep for the night, a home to live in, an opportunity for education, an escape from an abusive home—and even save a life.

Many know the power of helping those in need, but they don't know where to start. As part of our inaugural Bucket List edition, we are helping get the ball in motion by rounding up several ways to help community members and society. When you write something down, the likelihood of completing the task increases. So you will notice we've added "give back" to your 2023 project and bucket list planner to help you stay on track.

So, whether you opt to build a home, volunteer to feed the homeless, donate money or any other of the philanthropic pursuits we've gathered, you can feel good knowing you supported a good cause this year.

No matter what you're passionate about, there's a nonprofit or cause that could use

your help. We've outlined some of the categories in which several organizations fall under. You may find there are many causes that resonate with you, so start small and pick one. You can always add to your list!

HOW DO YOU TELL IF A CHARITY IS REPUTABLE?

Verify a charity's legitimacy and get a better picture of how much of their donations go toward expenses and overhead by looking them up on watchdog sites. The FTC recommends the BBB Wise Giving Alliance, Charity Navigator, CharityWatch and GuideStar. These sites rate nonprofits and allow you to find out more about each organization.

SUPPORT A CHARITY

In 2023, *Luxury Guide* will be launching a "Sponsor a Charity" program that will support the marketing needs of nonprofits, as well as provide a revenue stream that can support their mission. To learn how your nonprofit can receive complimentary coverage on our platforms, email info@LuxuryGuideUSA.com with Subject Line: Nonprofit Sponsor Program.

SAVING OUR OCEANS

The International SeaKeepers Society supports marine science and conservation by utilizing privately owned yachts as platforms for oceanographic research, educational outreach and marine conservation. These efforts eliminate vessel costs and permit scientists to allocate those funds to maximize research potential. It also enables boaters to take full advantage of their unique potential to advance marine sciences and raise awareness about global ocean issues. As boats travel the world, SeaKeepers seeks to create additional value to the mobilization of these vessels by engaging them in opportunities through the DISCOVERY Yacht Program. The degree of participation can vary from a 10-minute instrument deployment to an afternoon outreach with children to weeklong expeditions with a team of expert researchers.

To participate as a member of the DISCOVERY Yacht Fleet or learn more about SeaKeepers, visit SEAKEEPERS.ORG.

WHAT IS IV THERAPY?

Intravenous Therapy a routine medical procedure that is extremely standardized and considered safe in a clinical environment. Most significantly, it's administered by health experts using medical protocols. It is a quick method of delivering essential nutrients directly into your bloodstream.

WHAT IS THE ADVANTAGE OVER TAKING ORAL VITAMINS?

Nearly 90% of the ingredients are absorbed using IV therapy as opposed to oral administration. In oral administration only 20-50% are absorbed depending on your health, age, metabolism, genetics, and gut health.

HOW LONG DOES IT TAKE?

Forty-five minutes of infusion is the average time it takes to help you overcome fatigue, boost your immune system, and improve your overall optimal health.

I EAT HEALTHY, ISN'T THAT ENOUGH?

Foods alone no longer offer full nutritional value due to overprocessed foods and GMO's. By replacing these levels under the care of our expert medical advice, we can help you reach your peak fitness level and maximum energy levels.

IS IV THERAPY APPROVED BY DOCTORS?

Yes, Intravenous therapy is a routine medical procedure that is extremely standardized and considered safe in a clinical environment. Most significantly, it's administered by health experts in a medical setting. It is administered by a skilled nurse under the care of a medical director.

INVESTING IN A PASSION PAYS EMOTIONAL DIVIDENDS

By Laura Raybin Miller, first-Vice President-Wealth Management, Financial Advisor, The Suskind-Ripple Group at UBS Financial Services inc.

“
Art is an investment with emotional dividends attached to it.
”

ADD ART COLLECTING TO YOUR BUCKET LIST FOR 2023

How to get started in art collecting:

Some local young museums have divisions that educate young collectors and cater to future entrepreneurs who want to pursue their interests in art. You can also become a member of your local art museum’s collectors’ division to network with well-respected collectors. We also recommend attending art fairs, such as the UBS-sponsored Art Basel Miami Beach, as well as Art Miami and other events worldwide.

UBS and Art:

UBS has been a global lead partner of Art Basel in Basel, Switzerland, since 1994; Miami Beach since 2002; and Hong Kong since 2014. This longstanding partnership furthers our shared interest in art and collecting, creating a global platform for exchanging innovative ideas. It also allows us to connect with clients in meaningful ways.

The UBS Art Collection is one of the world’s largest corporate art collections, with over 30,000 works created by artists from more than 75 countries. Most of these works are displayed in UBS offices worldwide. UBS actively supports artists and galleries and lends works to major art museums and cultural institutions for public exhibitions.

About Laura Raybin Miller:

Laura Raybin Miller has been an investment professional since 1999 and joined UBS in 2013. She helps ultra-high and high-net-worth clients and their families identify their financial needs and objectives, bringing together the best of UBS’s local and global teams and resources to implement a holistic and comprehensive path toward achieving their life goals.

For more information about how to get started in the art world and your financial planning, email laura.raybinmiller@ubs.com. 305-200-2019 or 305-682-4637

The Suskind-Ripple Group of UBS Financial Services, Inc., Aventura, FL; ubs.com/team/srg

Having worked in the wealth management industry in South Florida for decades serving ultra-high-net-worth individuals with their financial goals, I’ve learned that art is a passion that moves many of my clients. It just so happens that art is also an investment with emotional dividends attached to it.

PASSION FOR ART IS A DRIVER

Art is an emotional, qualitative pursuit; many collectors are self-educated in the arts and invest considerable time in following their passion. They reap emotional value and, sometimes, financial value, yet I don’t advise looking at art as an investment class. Treating art as a pure investment asset is not only contrary to its nature but also the nature of the art market.

THE INTERSECTION OF ART AND THE COMMUNITY

Art intersects in many ways and areas for people, businesses and the community. There are numerous educational, social, cultural and humanitarian benefits of art. Clients with art collections often ask themselves, “How can my passion for art serve future educational and philanthropic purposes, whether at a museum, school, hospital or community institution?” Some art collectors are inspired to support emerging artists and give them the confidence and recognition they need to spur their careers.

REAL ESTATE AND ART

There are many long-term advantages to incorporating art into the foundation of our community—it becomes a point of distinction and brings people together. Affluent business leaders, families and community stakeholders often seek to integrate art into local infrastructure to help support emerging artists and inspire the community. In South Florida, this is evident in several locations, including at the Fort Lauderdale-Hollywood International Airport and Joe DiMaggio Children’s Hospital, part of Memorial Healthcare System, in Hollywood. During Art Basel Miami Beach, supported by UBS, outdoor sculptures are integrated into the program to bring the fair to the local community.

ART IN LEGACY PLANNING

Art inspires collectors to consider how they will preserve their collections to benefit their families and communities for generations to come. Some endow their collections in museums to ensure the art stays intact. We also see collaborations between museums and public school systems. For example, NSU Art Museum Fort Lauderdale recently collaborated with Memorial Healthcare System to provide students with educational museum tours combined with lunch and nutrition education.

— BEAUTY & —

INSPIRATION

The beauty of interior design and architecture, like all art forms, is in the eye of the beholder. Myriad styles exist, but what truly inspires is a matter of personal preference. This assortment of leading luxury hotels, cruise ships, megayachts and private residences—as envisioned by top industry talents—spans the globe and covers a spectrum of design aesthetics. We're confident you'll find one (or more!) that moves you.

Out of Bounds

From the reclaimed lands off the coast of Dubai, this island home refuses to be confined by rules or limitations.

VILLA ALPAGO **Dubai, UAE**

Architecture & Interiors: B8 Architecture

About: Villa Alpago is a mind-blowing residential project located on Dubai's famed Palm Jumeirah, the world's largest man-made island known for its ultra-luxurious resorts and private homes. Conceived by the award-winning Dubai-based architecture and design studio B8 Architecture, Villa Alpago is the very essence of "ad infinitum," meaning never-ending and without limit. Here, CEO, Founder, Senior Architect and Principal Designer Kristina

Bräteng, along with her talented team at B8, illustrate the fact that when one's imagination knows no bounds, neither do the design possibilities.

Overall Aesthetic: Contemporary elegance, as expressed through proportion and geometry, flawless finishes and an engaging play of light.

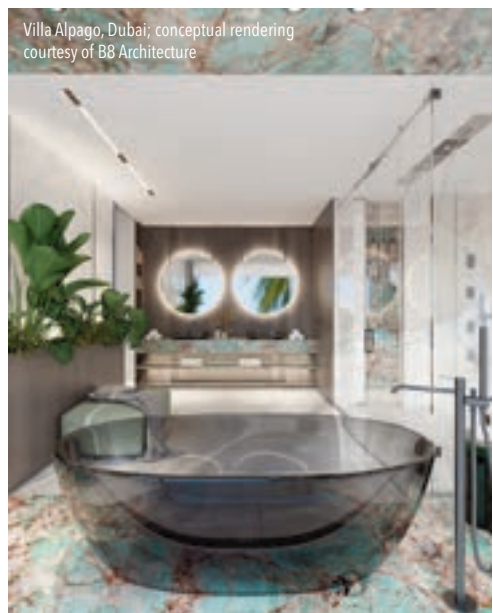

Standout Architectural Element: Expanses of glass on both the front façade and rear exterior, giving way to unobstructed views from every space and angle.

Outstanding Design Feature: Wall-to-wall backlit exotic stone.

ART VILLAS Playa Hermosa, Costa Rica

Architecture & Interior Design: Formafatal and Refuel Works

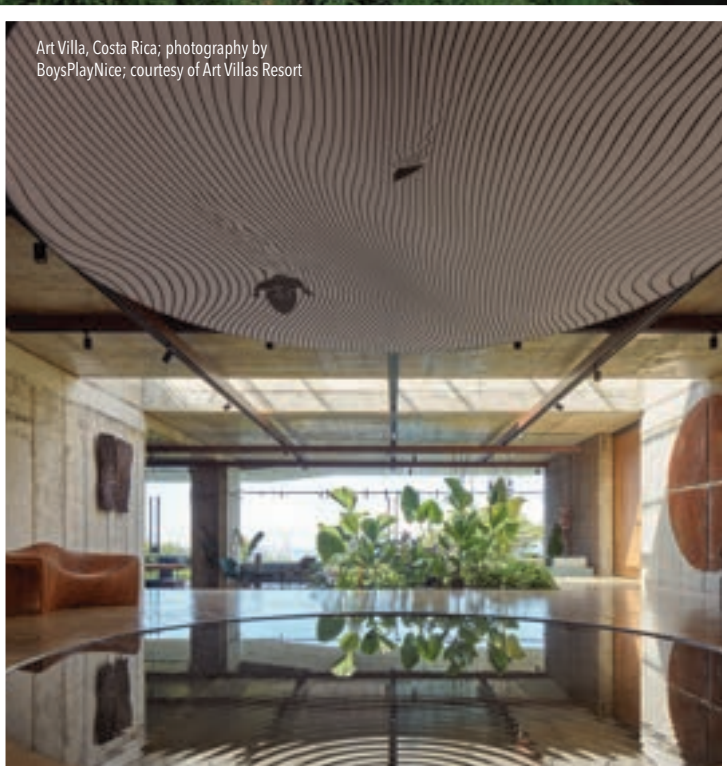

About: Art Villas uniquely melds all the beauty of modern architecture with all the wonder of Mother Nature. Nestled in the lush Costa Rican jungle nearly 985 feet above the Pacific Ocean, Art Villas is an integrated complex of several individual state-of-the-art structures, each designed so that both the views and connection to the outdoors are unimpeded. The Art Villa is a contemporary concrete structure whose expansive terrace opens to a panorama of rainforest

and sea. The Atelier Villa's rust-toned metal façade and green roof are seemingly camouflaged, but there's no mistaking the infinity pool that daringly extends outward to commingle with the trees.

Overall Aesthetic: Bold and monolithic with abundant references to the surrounding rainforest.

Standout Architectural Element: An edgy, low-profile, linear silhouette.

Outstanding Design Feature: The blending of materials, from smooth concrete to "burnt" metal to rich indigenous woods.

VERSACE TOWNHOUSE New York, NY

Interior Design: Gianni Versace

About: This Manhattan mansion, a six-story Neoclassical townhome formerly owned and designed by the late fashion icon Gianni Versace, oozes the designer’s signature style. Never one to ever shy away from extravagance, Versace appointed his NYC residence with plush velvet upholstery, painted ceilings à la the Sistine Chapel, gilded moldings, and restored 19th-century art panels sourced from a Florentine palazzo.

Overall Aesthetic: Lavish Italian Baroque.

Standout Architectural Element: Classical columns fabricated from the finest Rosso Verona marble.

Outstanding Design Features: Gleaming marble floors inlaid with intricate mosaic tilework.

The St. Regis Rome

THE ST. REGIS ROME Rome, Italy

Interior Design: Pierre-Yves Rochon

About: Originally opened as Le Grand Hotel in 1894 by renowned Swiss hotelier César Ritz, The St. Regis Rome underwent a full multimillion-dollar renovation in 2018 under the direction of world-renowned design firm Pierre-Yves Rochon. The lobby features a regal palette of black and gold,

while the guest rooms are done in powder blue or warm terra cotta. Travertine, Venetian mirror, sculptural busts, marble and various objects d'art are some of the elements that characterize the hotel's elegant European decor.

Overall Aesthetic: Chic, modern glamour with abundant historical references.

Outstanding Design Feature: Empire-style crystal chandeliers located throughout.

Beyond Belief

The brilliant design minds at Celebrity Cruises have gone above and beyond with their latest launch.

CELEBRITY BEYOND Celebrity Cruises

Shipbuilder: Chantiers de l'Atlantique

Architecture: Tom Wright

Interior Design: Kelly Hoppen CBE; Nate Berkus; Jouin Manku

About: *Celebrity Beyond*, Celebrity Cruises' newest vessel, is a veritable luxury resort at sea. Its attributes include innovative architecture and design by global talents, exceptional cuisine by Michelin-starred chefs, upscale retail shopping and exquisite artworks.

Overall Aesthetic: Spacious and sophisticated, with fresh color palettes.

Outstanding Design Features: Kelly Hoppen-designed accommodations, from modern two-story villas with private plunge pools to staterooms with infinite verandas; an expanded rooftop garden and resort deck with two cantilevered floating swimming pools; and the multi-level, multi-terraced Sunset Bar at the ship's aft, the vision of celebrated interior designer Nate Berkus.

Worth Noting: *Celebrity Beyond* debuts world-famous chef Daniel Boulud's first-ever restaurant at sea, *Le Voyage*.

Jewels of the Ocean

Whether it's understated elegance or eye-popping bling that floats your boat, here's what's happening on the design scene at sea.

STELLA DEL SUD

Interior Design: Gabriele Teruzzi Yachts & Design

About: The wonder of this 361-foot superyacht concept by Italian design studio Gabriele Teruzzi Yachts & Design begins with its silhouette: It's built in the image of a cut gem. The double-height main saloon features panoramic windows that flood the room with natural daylight. The owner's suite is appointed with two sizable hammered-gold sculptures that adorn the headboard wall and an aquarium floating overhead. On deck is an intimate private lounge area with ample sunbeds, plus a helipad.

Overall Aesthetic: Lavish, with art deco influences.

Outstanding Design Feature: An open beach area inspired by Italy's Royal Palace of Caserta with a waterfall that gives way to three swimming pools.

Worth Noting: *Stella Del Sud* takes its name from Cartier's famed rare 128-carat diamond.

EVRIMA The Ritz-Carlton Yacht Collection

Shipbuilder: Astilleros Barreras Shipyard

Architecture & Design: Tillberg Design of Sweden

About: Conceived to be part superyacht, part cruise ship, *Evrima* is complete with all the luxury and superior service associated with The Ritz-Carlton brand. A significant part of the experience is its “residential” quality: The expansive windows, private balconies and unusually high ceilings are more reminiscent of a luxe residence than a cruise ship cabin.

Overall Aesthetic: Sleek and modern with soothing neutral hues.

Notable Design Features: All 149 rooms on the ship are suites with terraces featuring floor-to-ceiling windows. Duplex loft-style suites and an owner’s suite with a private hot tub are also among the onboard accommodations.

Worth Noting: This is the first seafaring vessel by a luxury hotel brand.

OUR PHILOSOPHY

To implement sustainable design as much as possible while maintaining high quality standards that meet our client's vision and budget. Ongoing communication throughout the process ensures we arrive at an optimum outcome that meets our client expectations.

ABOUT SUSTAINABLE DESIGN

Sustainable design seeks to reduce negative impacts on the environment by reducing the consumption of non-renewable resources. These technologies may have an upfront cost, however part of the design process is to review and analyze what technologies financially make sense for our clients.

SMART Homes REQUIRE SMART PLANNING & EXPERT COLLABORATION

Avoid wasting dollars and headaches in the quest to make your home “smart”. With 25 years of experience and over 2,500 completed projects, providing world-class technology design and installation in high-end residential and marine settings for clients around the world, our team of experts can handle everything from A/V and automation to engineering and consultations and more!

WHEN TO HIRED AN AV INTEGRATOR

Whether building a home or converting an existing one into a smart one, being involved at the beginning of the process allows the design and wiring to be done cohesively and accurately which will ultimately save clients time and money.

BENEFITS OF PLANNING AT THE BEGINNING

Home automation experts can work in collaboration with a design and build team of architects, general contractors and designers to develop the ultimate plan. With early planning for new projects, the wiring can be installed before the walls go up, which will keep the cords from showing.

BENEFITS OF COLLABORATION WITH A DESIGN & BUILD TEAM

The beauty behind collaboration is separate expert entities developing separate visions for a space and blending them cohesively into one. Mirror televisions that disappear and Ketra-caliber lighting systems are some examples of collaborative magic in design, function and form.

BENEFITS OF CONSULTING WITH AV INTEGRATORS FOR OUTDOOR LIVING SPACES

Sound can get lost in large outdoor spaces if speakers are not placed throughout the yard correctly. Consulting with a professional will ensure that you can create the optimum sound. Additionally, they will be able to collaborate with landscape architects or general contractors, if needed.

RECOMMENDATIONS FOR ADDING BASIC TECHNOLOGY FEATURES

Adding motorized shades, climate control, and smart lighting can elevate your lifestyle of living. We will ensure all of these features can be controlled by a simple click of a button while at home or away traveling using smart devices.

AUDIO ONE'S PROCESS

One of our experts will spend time learning our clients' needs, ideas, expectations, and non-negotiables for the project. An initial walk through of the residence is required to collect data used to develop a proper plan. These two steps will allow us to deliver a concise proposal that will exceed expectations.

WHY CHOOSE AUDIO ONE?

Aside from our unwavering passion for perfection and client satisfaction, it is our credentials. Home Technology Association-certified (HTA) is the first and only industry standard of excellence for home technology companies.

AUDIO ONE HAS THE CERTIFICATION OF ESTATE

This means we can optimize projects of large-scale luxury homes of 10,000 square feet and up. Audio One has been serving the most discerning clientele, including celebrities, with complex projects, all while maintaining client confidentiality.

Dromoland Castle

The Gift of Travel

If you're looking for the ultimate gift to share with your loved one, a once-in-a-lifetime adventure is the perfect choice!

FOR THE HISTORIAN

A Genealogical Deep Dive in Ireland

If you have Irish roots, consider gifting a trip to Ireland complete with a stay at a centuries-old castle and a session with a genealogist. Dromoland Castle's in-house genealogist, Lorna Moloney, will uncover birth records, land deeds, baptisms, marriages, ship logs and other information that will shed light on your family's history and expose little-known details. One client discovered they were related to the famous female pirate Grace O'Malley, and another discovered her great-great-grandfather had a tattoo of Queen Victoria on his bicep!

FOR THE TIME TRAVELERS

Journey Aboard the Venice Simplon-Orient-Express

A 1920s Art Deco icon, Venice Simplon-Orient-Express evokes the golden age of travel with its restored vintage carriages, each of which formed part of the famous, historic trains of the 1920s and 1930s, including Le Train Bleu and the Rome Express. Crisscrossing through Europe, the journeys whisk travelers to some of Europe's most beautiful and historic cities including London, Paris, Venice, Prague, Vienna, and Budapest. The classic journey is the overnight route to and from London and Venice via Paris, through the Alps and across the Venetian lagoon.
