### New Collection: Natural Elements™

Groundbreaking in every way, PAPER IS THE NEW VINYL. This high-performance embossed and printed paper exceeds Type II vinyl durability, is sustainable, affordably priced, and indistinguishable from actual concrete, wood, and stone finishes.

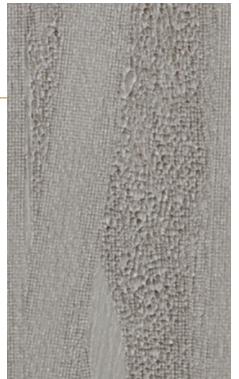

### New Collection: Fresco™

Produced by artisans in our Chicago studio, Fresco's effect of ancient stone is achieved through the hand-application of multiple layers of gesso and metallic pearlescent pigments. Fresco's authentic finish is produced on a durable, non-woven ground.

### New Collection: Seagrass II™ Type II Vinyl

The organic, free-flowing texture of Seagrass II is reminiscent of marine plants gently undulating in an underwater habitat. Made in America, this Type II vinyl utilizes a special printing process to accentuate a deep emboss. Its vertical scale is perfect for large and small spaces.

### January 2019 Collection: Shimmering Burlap™

Created in collaboration with architect Andre Kikoski, this collection has already won multiple awards. Handcrafted in our Chicago Studio, the juxtaposition of fibrous burlap and reflective mica creates a multi-dimensional feel, perfect for intimate spaces and larger environments.
