Extraordinary Surfacing Materials

FOR IMMEDIATE RELEASE

Ajiro Fanfare™

Wood Veneer

An intricately hand-inlaid wood veneer referencing Art Deco straw veneer. Ajiro Fanfare captures and reflects light beautifully. Micro thin wood on paper backing, Fanfare is flexible enough to wrap columns and turn corners. A cost-effective and environmentally sound alternative to traditional wood paneling, finished in our Chicago studio.

Ajiro Plank™

Wood Veneer

Ajiro Plank is a linear, architectural wood veneer colored by hand in our Chicago studio. Micro-thin wood hand-inlaid on paper backing, Plank can be installed vertically or horizontally for a virtually seamless installation. A cost-effective and environmentally sound alternative to traditional wood paneling.

True Metals Coffers™

Aluminum & Copper Tiles

We are pleased to add two elegant and versatile new colorways, Tortoise and Champagne Silver, to the True Metals Coffers and Basketweave collections. True Metals tiles are hand-crafted, meticulously inlaid on paper backing and finished using traditional techniques. Carefully preserved with beeswax, tiles retain their appearance over time. A portion of proceeds goes to support Aid to Artisans

Crêpe Suzette™

Pleated Fabric Wallcovering

Responding to light like a classic silk textile, this triple-pleated fabric wallcovering adds an elegant air to any interior. Paper-backed polyester installs easily, and, because of the pleating and wide roll, seams beautifully. Coordinates perfectly with the single-pleated Suzette.

Suzette™

Pleated Fabric Wallcovering

A ruched fabric wallcovering that catches light like a classic silk textile. Romantic and refined, paper-backed polyester installs easily, and, because of the pleating and wide roll, seams beautifully. Coordinates perfectly with the triple-pleated Crêpe Suzette.

Precious Metals II™

Type II 54" Vinyl

Maya Romanoff's elegant Precious Metals is now available in a washable, UV-resistant, strippable 54" Type II vinyl. Precious Metals II's subtle pattern utilizes Mylar to replicate the refined aesthetic of metal leaf on paper. A unique metallic print provides great reflectivity.

Weathered Metals II™

Type II 54" Vinyl

Interior Design Magazine Best of Year Award
BDNY Best Wallcovering

Hand-painted design now available in washable, UV-resistant, and strippable 54" Type II vinyl. Weathered Metals II was designed with a remarkable large 54" wide by 36" high repeat, creating a subtle, seemingly random pattern. The product has an all-over emboss, metallic print effects and seamless installation.
